Dear Mr. Sampson:

This will confirm your report of reception of KWGO on December 22nd, 1955.

We were glad to get your report, and wish we could accomodate you in your request for a coverage map. We presume the nighttime is what you want.

We have a daytime contour map, but at night we go into a 2-tower directional which is an elongated figure-eight with the long axis running directly north and south. Since such a map only confuses advertisers, we never had one printed up.

Thanks again for your response.

Happy New Year
