Mr. John Sampson
7940 Pacific
Omaha 6, Nebraska

Dear Mr. Sampson:

Thank you very much for your report of our special DX program for the National Radio Club, which was conducted on January 31st.

The transmissions you mention in your letter correspond with our log of the program.

It's nice to know that the program was heard in your part of the country but I regret that you had heavy interference as it was picked up much clearer in other parts of the country.

We are on the air from 6:00 AM to 12:00 midnight PST and we do not have a regularly scheduled frequency check. Our antenna pattern is non-directional.

Hope this information will be of some help to you.

Sincerely yours,

Walter Rees
