

Radio Station

# KX-RX dial 1500

P. O. BOX 167  
SAN JOSE, CALIFORNIA  
TELEPHONE CYPRESS 2-5080

May 15 19 57

Mr. J.N Sampson

Dear Sir:

This is to confirm your reception report of KXRX.  
Your report has been checked against our records and has  
been found to be substantially accurate.

KX-RX operates as a twenty-four hour station on the  
clear channel of 1500 KC/S with a power of 1000 watts day  
and night. We radiate in such a manner that we produce very  
little signal strength in the direction 61° North from San  
Jose, consequently reception of our signals in the Eastern  
United States is difficult. The equipment in use at present  
is an RCA BTA 1-L Transmitter, a 76B RCA Console, and a two  
tower directional antenna system.

Again, we are pleased to confirm your report and express  
our thanks for your interest in our operation.

Dear Sir:

Yours truly

This is to confirm your reception report of Wilson Hunt.  
Your report has been checked against our records and has  
been found to be substantially accurate.
