CBS Radio

April 23, 1980

Dear John,

We were on the air on April 14, 1980 broadcasting a tone (1000 Hz) + Id's during the period mentioned in ur letter. We were running 1000 watts into a  $\frac{5}{8}$ th wave vertical 450 ft high.

By the way John in my younger days I lived in Omaha. I was in the U.S. Signal Corps at Fort Omaha 1938-1940 & worked as a transmitter attendant.

Ed Powers  
Chief Engineer.
