Omaha 6, Nebr.

Dear John;

It will be a pleasure to QSL your reception Report of March 7, 1955. We at WCHF will be running more equipment tests in the near future (we hope) as our application is now before the FCC for a power increase from 1 kw to 5 kw.

DX is a wonderful hobby and has proved to be adventure at its highest. Many nights have we spent just scanning the bands after getting tired of hamming. I personally owe much to this phase of radio as it was one of the reasons that I went into it as hobby and suddenly realized that radio had a future as well.

We would like to wish you the best of hunting and the best of 73s

Roger T. Huftel
