January 11, 1958

Mr. John Sampson,
7940 Pacific,
Omaha, Nebraska.

Dear John:

The program items that you list for our DX test on Monday, January 6, 1958 are correct so it is with real pleasure that we can verify your reception of station WCLC.

Yours is our first report from the state of Nebraska and we appreciate the trouble you took in getting it to us.

Jamestown is the county seat of Fentress County, Tennessee, and is located atop the beautiful Cumberland Plateau, 100 miles east of Nashville.

Thanks for writing OM,

DXingly yours,

Bill Prater
