RADIO STATION RIPON, WISCONSIN

PHONE BLACK 818

5000 WATTS
1600 KCS

Jan 3rd, 1958

Dear Mr. Sampson,

Thank you for your reception report of Dec 24th. The announcements and items you listed in your report agree with our program log.

We are using two 150' guyed towers spaced at 102 feet or 60 degrees. Our major lobe is at 310 degrees, minor lobe at 130 degrees. No radiation at 87 and 173 degrees. Because of our location and antenna height, we require no tower lights.

Ripon is 20 miles west of Fond du Lac on Lake Winnebago, and about 75 miles north northwest of Milwaukee. Inclosed is a coverage map which you requested.

Thanking you again for your report and wishing you the best in this New Year, I remain-

Sincerely

Gordon Alcorn

Chief Engineer

DIRECTED TO THE CREAM OF WISCONSIN'S DAIRYLAND
