June 29, 1956

Mr. John Sampson  
7940 Pacific  
Omaha, Nebraska

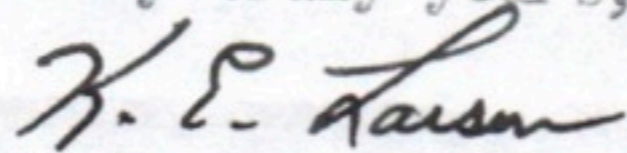

Dear Mr. Sampson:

This verifies your reception of WDGY on June 20, 1956, from 7:53 PM to 8:00 PM C.S.T. We operate with a power of 50,000 watts into a nine element array.

I am enclosing a copy of our daytime coverage pattern, which is almost non-directional. Our nighttime pattern consists mainly of a lobe to the North. I have no copies of the nighttime pattern though.

Thank you for your letter, we are always interested in reports of distant reception.

Very truly yours,

Kenneth E. Larson  
Transmitter Supervisor
