Dear Sir:

This confirms your report of reception of Radio Station WDOK of Cleveland, Ohio.

WDOK operates on 1260 Kc. with five thousand watts power. Our present operating hours are from six AM until two AM seven days per week.

Two studio locations are employed. A downtown location with two large studios is at 1515 Euclid Avenue and two additional studios are in operation daily at our transmitter location six miles south of Cleveland, Ohio, on Ohio Route 176 in Seven Hills Village, Ohio.

The transmitter is an R C A type B T A 5 F.

A five tower in line antenna array of quarter wave radiators is employed during the night pattern and four towers during the day pattern. The pattern is directed essentially to the north.

A test and maintenance period is held Saturday, Sunday and Monday nights from Midnight until 6:00 AM.

A frequency test is held at 0330 Hours the first Saturday of each month.

Many thanks for your excellent report and the best of D X to you.

Very truly yours,

C. E. Ormston
