Mr. John Sampson
Omaha, Neb.

Dear John;

Thanks for the letter and for the nice signal report up there in Nebraska. This letter confirms that you heard Radio Station WEKR on Jan. 26, 1955.

We run 250 watts and our frequency check is every 4th Wednesday morning at 2:15 CST.

John, I am a Ham Radio Operator here with the call of W4MQV. I operate mostly on 75 meters with 250 watts input to an 813.....

Thanks for writing, appreciate it a lot... Got another letter from Neb., it was from Geneva, so I guess we were doing all up through that part of the country.

Good Luck, John.

73 es Sincerely

Ernest Tucker
