Omaha, Nebraska

Dear Sir:

This will verify your Reception Report of this station on December 21, 1956 between the hours of 1:49-1:55 A.M.

So far we have received over 70 reports of reception from various parts of the nation reporting anywhere from excellent to fair reception. Unfortunately, the weather here was mighty poor. The entire area from here to the east coast was blanketed by a fog and drizzle. We seemed to do better west of here than to the east.

Thanks again for the report. As we announced a nice gift will be sent to the DX'r giving us the most distant report. So far Denver, Colorado has it but we are still receiving reports.

Perhaps we'll be testing again and if so, will notify your fine club of the test time etc.

Yours very truly,

A handwritten signature in blue ink that reads 'H. W. Wells'.
