Pennyrite District*

RADIO STATION **WKO A** 1480 On Your Dial  
1000 Watts

HOPKINSVILLE, KENTUCKY  
September 6, 1954

Dear John,

This note verifies your report of reception of WKO A on September 1, 1954. I think your report is the second one we've recieved from Nebraska. You "DX-ers" have really done a fine job for us. Lots of good reports, sixteen to date, and those on the first couple of days of our tests. There are yet a couple of days to hear from.

WKO A is using Gates equipment throughout, the transmitter being their BC-1F (1-KW) shunt-feeding a 150' tower. Our operation will be daytime, non-directional starting on the nineteenth of this month.

Thanks for the report, and good DX-ing. Here's hoping you log 'em all!

Walter B. Wilson  
Chief Engineer, WKO A
