DEAR SIR:

I AM PLEASED TO VERIFY YOUR REPORT OF
RECEPTION OF WLOK ON 8-18-57
AT 6:18³⁰ TO 6:25 CST.

THANK YOU VERY MUCH FOR YOUR NICE LETTER.

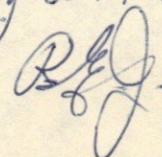

CORDIALLY,

B. E. JONES
CHIEF ENGINEER

BEJ:MLP

WLOK operates non-directional, with the transmitter located practically in the electrical center of Memphis. We have a conventional antenna and ground system, the tower is 200 feet high, and our ground ^{wire} short on the south side because of the size of our field. We are now operating an 5000 watts.
