CHARLES C. CALEY
PRESIDENT & GENERAL MANAGER

January 3, 1956

Mr. John Sampson
7940 Pacific
Omaha, 6, Nebraska

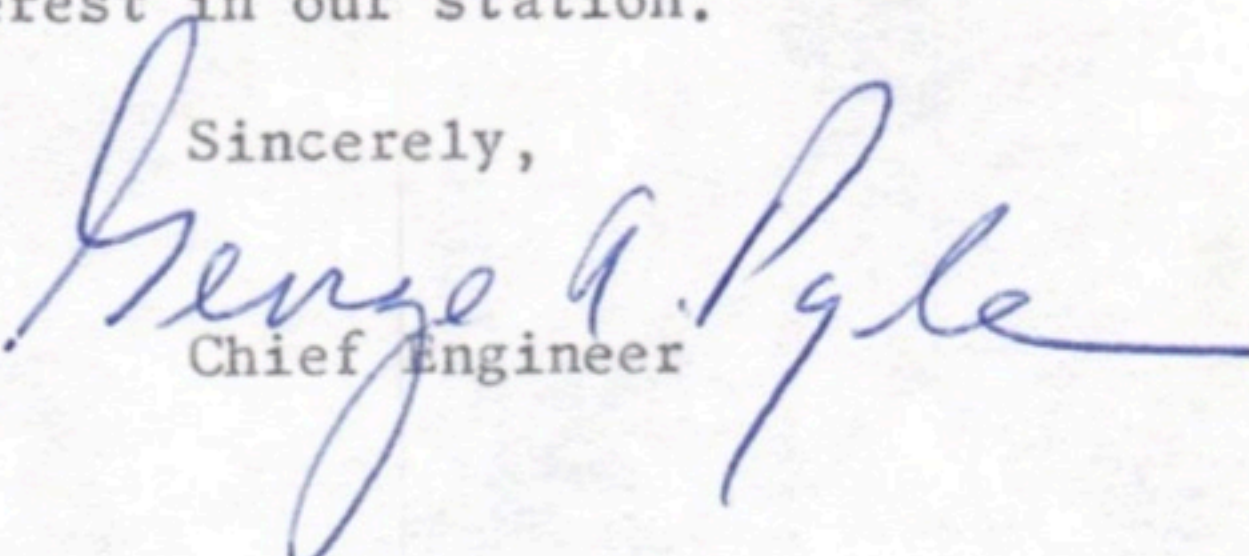

Dear Mr. Sampson:

This will serve to verify your reception of WMBD on the
26th of December, 1955.

I regret that at the present time we do not have extra
copies of our nitetime pattern available in a form suitable
for mailing. For your information, however, we use a
four-tower array and most of the signal is beamed north
from Peoria at night.

Thank you for your interest in our station.

Sincerely,

Chief Engineer

George A. Pyle
