Mr. John Sampson
7940 Pacific
Omaha 6, Nebraska

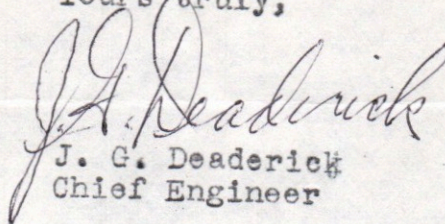

Dear Sir:

Thank you for your reception report on this station for December 26, 1955 from 3:00:30 to 3:09AM CST.

This will verify you report.

I am sorry that no coverage pattern copies are available; however, we are directional at night, and our main signal strength lobe is directed toward Florida, with minor lobes between the radials toward other 680 kc stations that we protect.

Yours truly,

J. G. Deaderick
Chief Engineer
