Dear Mr. Sampson:

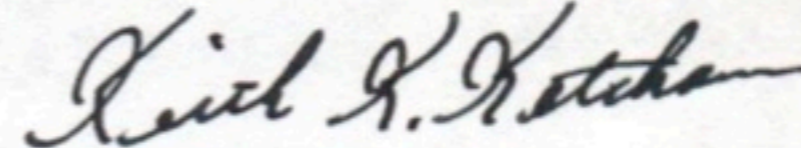

Thank you very much for your report of January 28, 1955. I am happy to hear that WOI comes in loud and clear at your location.

We use an RCA 5-DX 5 kw transmitter feeding a shunt fed grounded tower 400 feet in height. Although I have no coverage signal pattern that I can send to you, our coverage area does extend a distance of 185 miles from the transmitter.

Enclosed please find a schedule of the station's operation.

Thank you very much.

Very truly yours,

Keith K. Ketcham
