

RADIO STATION WTUC

250 WATTS

DAYTIME

1580 KC

OWNED AND OPERATED BY THE OBION COUNTY BROADCASTING COMPANY

227 South Second Street
Union City, Tennessee

Dear Sir,

We have just received a reception report from you. In your report you stated that you received this station's signal on January 3, 1957. After checking our log sheet for the month of January, I find that this station was on the air from 1:30 to 1:45 am on the date mentioned. We were running a frequency check and our carrier was modulated with voice and music. There was a station break between each musical number.

We are a daytime broadcasting station operating on an assigned frequency of 1580 KC with a power output of 250 watts. We utilize a GATES' BC-250L, 250 WATT BROADCAST TRANSMITTER with all GATES' equipment.

The previous letter that you wrote evidently wasn't received by this station, because we have no record of it.

We wish to thank you for your interest and consideration.

Very truly yours,
