

# WWJ *and* WWJ-FM

950 KC

97.1 MC

DETROIT 31. MICHIGAN

August 9, 1955.

Mr. John Sampson  
7940 Pacific  
Omaha 6, Nebraska

Dear Mr. Sampson:

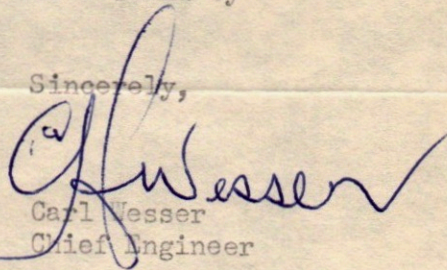

Thank you for your letter of August 2, 1955 in which you reported hearing WWJ at 2:50 - 3:02 AM Central Standard Time.

A check of our log indicates your report of reception is correct.

Our station started on a regularly daily schedule August 20, 1920 using call letters 8 M K. The call letters then were changed to W B L and thenceforth to W W J.

The original transmitter was the DeForest 10 Watt which was replaced with a Western Electric 500 Watt replaced again by a Western Electric 1 Kilowatt transmitter and now a Western Electric 5 Kilowatt transmitter. The Western Electric 1 Kilowatt transmitter is still in use for a stand by auxillary.

Sincerely,

Carl Nesser  
Chief Engineer
