January 17th, 1958.-

Mr. John Sampson  
7940 Pacific  
Omaha, Nebraska

Dear Mr. Sampson:

We are in receipt of your reception report as heard by you on January 6th of this year from 12:32 A. M. to 12:34 A. M., Pacific Standard Time on 910 Kcs.

Your report is correct. X. E. A. O. has 250 Watts and transmits from 5:00 A.M. thru 12 Midnite every day.

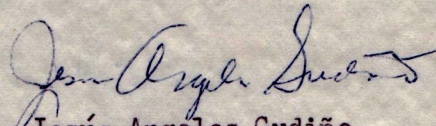

The reception you heard was not regular. We were checking our frequency with Laboratory in San Diego, California.

"X. E. A. O." is the oldest Radio Station in Baja California and in Mexicali. We celebrated our Twentififth Aniversary in April last year. Our Antenna is Vertical of Metalic Structure and measures 60 "metros".

Thanking you very much for your report,

We remain,

Very truly yours,

  
Jesús Angeles Gudiño,  
Technician.-
