

BROWNSVILLE, TEXAS

THE SPANISH LANGUAGE STATIONS COVERING THE LOWER RIO GRANDE VALLEY

January 13, 1958

Mr. John Sampson
National Radio Club
7940 Pacific
Omaha, Nebraska

Dear Mr. Sampson:

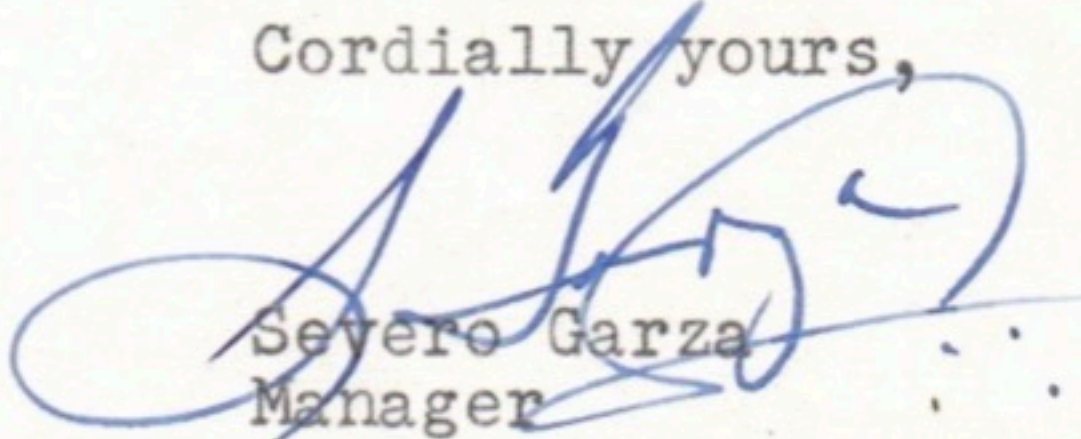

Many thanks for your undated letter reporting reception of XEO on January 5th, in Omaha, Nebraska.

The XEO transmitter plant is located about 2 miles west of Matamoros on the Reynosa highway. As you may know, Matamoros is directly across the Rio Grande from Brownsville, Texas. Our antenna is a self-supported 250' Blaw Knox tower tuned to a quarter wave. Our transmitter is a composite, built by our own engineer.

XEO's regular broadcast schedule is from 5:00 AM to 12 midnight Mondays through Saturdays and 6:00 AM to 10:00 PM Sundays. All our broadcasting is in Spanish except for the English language station identifications you reported.

Thanks again. We are always glad to have reports from DXers.

Cordially yours,

Severo Garza
Manager
