

Mr. John N. Sampson
22502 North Hermosillo Drive
Sun City West, Arizona 85375

August 2, 1999

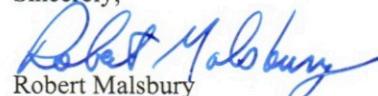

Dear Mr. Sampson;

Apparently, your first request was lost in the mail!

This letter is to confirm your reception of KCUB AM, Tucson, Arizona on March 20, 1999.

You might also like a challenge. One of our sister stations, KTUC, presently operating at a reduced power of 492 watts pending a transmitter site move, is at 1400. Due to additional skywave interference and the lower power, you might find this one "a-bit tough", which makes it all the more satisfying when accomplished.

Sincerely,

Robert Malsbury
Director of Engineering
Slone Broadcasting Company
