

We are pleased to confirm your reception of AM 1110, Radio Disney on January 7, 2003 between 4:55 and 5:00 P.M. Pacific Standard Time.

As you surmised, our patten change occurred at 5 P.M. The night directional is to the southwest toward Los Angeles, and provides very broad protection toward the northeast (KFAB, Omaha).

KDIS broadcasts from its transmitter site in Irwindale, CA with a daytime power of 50,000 watts, and a nighttime power of 20,000 watts. KDIS employs a five-tower system to provide different directional patterns for day and night operation.

Chris Hays, KDIS, KLOS, KABC, and KSPN engineering

A handwritten signature in black ink that reads "Chris Hays". The signature is written in a cursive, flowing style.
