Dear Mr. Sampson,

I'm sorry your previous report was lost. It never made it to my desk. Normally all QSL reports are sent to me for disposition.

This is confirmation that you received the signal of KENO, 1460, on Friday, November 30, 2001.

Interestingly enough, one of the interfering stations is one that I worked at as a DJ/engineer over 30 years ago, KKSC in Colorado Springs.

KENO is owned by Lotus Broadcasting along with KBAD 920, KOMP 92.3 and KXPT 97.1 here in Las Vegas. Additionally we own about 22 other stations in Tucson, San Antonio, Reno, Bakersfield, Fresno, and Los Angeles.

Your Drake R8 with loop seems to be doing a good job for you. I'm a former member of the NRC and have had articles published in their newsletter years ago.

Good luck, and Good DX.

Bill Croghan CPBE, WB0KSW
