

December 17, 2002

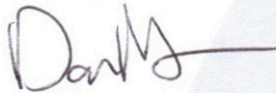

Mr. John Sampson
22502 North Hermosillo Drive
Sun City West, AZ 85375

Dear John,

We received your reception report of KKOH.

KKOH broadcasts with 50,000 watts on 780 KHz twenty-four hours a day. We're located in Reno, Nevada. We are required to go to a directional antenna pattern aimed toward the southwest from dusk till dawn, but our signal is heard from Canada to Mexico on the west coast at night. We have received signal reports from as far away as Japan, Australia and the Scandinavian countries.

Sincerely,

Dan Mason
Program Director
