

May 23, 2001

John Sampson  
22502 N. Hermosillo Dr.  
Sun City West, AZ 85375

Dear John:

Thank you for your reception report of KNBR dated May 8, 2001. Based upon your letter, I can confirm your report.

KNBR operates on 680 kHz with a power of 50,000 watts from our transmitter site in Redwood City, California, about 20 miles south of San Francisco. We use a Harris DX-50 solid-state transmitter. Our antenna is a sectionalized and top loaded 550' tower and we operate non-directionally 24 hours a day.

We are a 24-hour sports station and the originating station for the San Francisco Giants baseball team and the Golden State Warriors basketball team.

Thank you for your report and Happy DX!

Sincerely,

Erick Steinberg, K6ER  
Director of Technical Operations
