Dear John,

Thanks for the letter on "Timeless Classics" 710AM-KUET. What you heard was our pre-sign on programming. We were going through testing phases at our lower power. Since the time that you documented on December 16, 2001, we have increased our power to 22,500 watts giving us one of the largest signals in the Phoenix area. A funny story, we have received a letter from Medicine Hat, Alberta, Canada! That is getting a signal out. We have received many letters from distant areas such as California, Nevada, Colorado, Utah, and many more.

I'm glad that you like the format that we put on. The original programming was very much a decoy to make people think that we were doing something different. Well, needless to say, it worked. Please let all of your friends know about us. That would be very much appreciated.

Take care and thanks for listening.

Sincerely,

Mike Thomas  
"Timeless Classics" 710AM-KUET
