John N. Sampson
4148 Wycliff Drive
Winston-Salem, North Carolina 27106

Dear John,

I am most pleased to verify your reception of KLUC Radio with 10,000 watts from Las Vegas, Nevada, on March 15, 1971, between the hours of 12:02AM to 12:14AM, P.S.T.

I'm originally from Ohio (Dayton), and I can appreciate the problem of trying to receive anything on 1140Khz, besides WRVA, in the eastern states. That makes KLUC quite a catch for you.

Our transmitter is a new Collins 820-F, with antenna (non-directional) situated 522 feet above average terrain.

Sorry the test was cut short by 15 minutes, but we had a personnel problem that demanded it. However, KLUC does test monthly for a frequency check, and maybe you'll pick us up again.

Many thanks for your reception report. Hope you like the coverage map.
