June 26, 1970

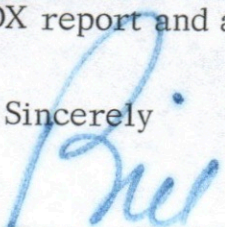

Mr. John Samson
4148 Wycliff Drive
Winston-Salem, N. C. 27106

Dear John

It looks as if the "early bird catches the worm". You must have indeed heard WACX as your account of what you heard is accurate. In order to begin our Metromedia Network News on time we must sign on at 5:59 A.M. this gives us a full minute before other daytimers begin operation. I too have heard WHBT in Tennessee here in Atlanta just prior to our sign off. I don't know what kind of power he is running but he does get out early in the mornings.

WACX primarily serves West Metro Atlanta we operate with 500 watts pre-sunrise and 1kw non-directional daytime. I have enclosed some information on the station so you can be able to see more about the station to whom you were listening even if it was just for a minute. We program "Mod-Country Music". All very heavily formatted. Thank you much for the DX report and accept this as a letter of verification.

Sincerely

William G. Brown
Ch Eng.
