1,000 WATTS SOUNDING LIKE A MILLION

Mr. John Sampson July 26, 1973
 52 Delwick Lane
 New Providence, N.J. 07974

Dear Mr. Sampson:

We thank you very much for your letter and signal report. It is our pleasure to confirm your contact of WAZS on April 26, 1970. We regret that your first letter was not answered after checking our logs we find your information to be correct and you are the first SWL report we have received.

WAZS radio is a standard class daytime station located on highway 78 0.9 miles Northwest of Summerville, South Carolina. The station operates with 1000 watts of power from a C.C.A. transmitter into a 250 foot antenna. The grounding system consists of 120 250 foot radials and a 48x48 foot ground screen.

On behalf of WAZS I would again like to thank you and wish you the best of DX SWL.

Sincerely,

Dennis J. Sommers
