Dear John:

This is to confirm that you did indeed receive the last few minutes of a broadcast day from WCLB Radio in Camilla, Georgia.

This is the first such notification that has been received by us since I became Assistant Manager in March of this year, and I find it quite thrilling to think you could find us way up there in North Carolina. I understand that when WCLB was broadcasting at night for test purposes years ago we were picked up in New Zealand. It seemed quite fantastic to me until Mr. Charlie Browne, our manager, explained about the ionosphere(?).

Thank you for your letter and best wishes in the continuation of your unusual hobby.

Sincerely yours,

Geneva Richter
