

# RADIO STATION WEND

1580 Kilocycles • 1000 Watts

P. O. BOX 237  
EBENSBURG, PA. 15931

May 10, 1970

Mr. John Sampson  
4148 Wycliff Drive  
Winston-Salem, N.C.

Dear John:

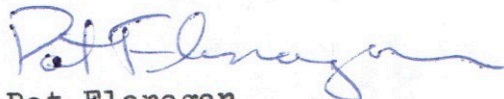

Please accept this letter as official verification of WEND on January 26, 1970 from 2:53 until 3:22 am EST. Your report was most interesting.

I would like to apologize for the great delay in answering you report but shortly after the test, I left the employ of WEND to work at WWSF in Loretto. That coupled with a fantastic work load at college caused the great delay in answering some of the reports. Please forgive me, for if the tables were turned I know I would be very dissapointed in not hearing from a station that ran a special test.

As you probably know the test was a smashing success with reports from 26 states in cluding Hawaii.

Again, thanks for taking the time to listen and write. I will most probably be at Hasbrouck Heights, hope to see you there.

73 and continued good DX,

Pat Flanagan
