Mr. John Sampson
Ceder Lake Court
Route No. 2
Kernersville, N.C. 27284

Dear John:

At long last I have found the time to confirm your reception of WGTM Radio and that according to our log you were correct in your program listing.

I have been busy these last few months rebuilding our complete antenna system and that would explain to some extent my delay in answering your letter. Also, being somewhat lazy might have something to do with it. Anyway, this will confirm your reception. The reason you probably have some difficulty in reading our station is the fact that we are directional both day and night and most of our signal is beamed East and South. We protect Lynchburg, Va. on 590.

Best personal regards and good listening, I remain
