1000 watts

JANUARY 1, 1969

Mr. John Sampson
4148 Mycliff Dr.
Winston-Salem, North Carolina

Dear Mr. Sampson:

This letter is to confirm your report of hearing us in Winston-Salem last December 27, 1968. We thank you for the report, though we do not solicit such reports.

We operate a Collins 20V 1kw transmitter on 1260kHz, daytime only. When you heard us we were on low power at 500 watts in accordance with P.S.A. and the F.C.C. We go to normal power (1kw) at local sunrise.

Again, thank you and drop by to see us anytime you're in this vicinity.

Yours truly,

Henry McElveen, Jr.
