January 7, 1970

Dear John,

This letter is to confirm your reception of the WKND
Equipment Performance Test on December 29th at 2:07-2:29am EST.

To date, Winston-Salem is the furthest southern point
that our signal had been picked up. The Mid-West had us all the
way!! At times, WLEE gave us a bit of garble, but we seem to have
come through okay.

We were as happy to hear from you John, as you were to
log us down. Thanks again for the great report!
