910 kc - 5,000 watts

Home of Camp LeJeune - World's Largest Marine Amphibious Base

Telephone 347-4111 • Jacksonville, North Carolina 28541

We are happy to verify the accuracy of your reception report of WLAS transmissions on 8/23/70 At 6:06 to 6:20 AM. Your report is authentic in that it corresponds accurately with our transmitter log for that period.

We are always pleased to hear from DXers and are happy to QSL.

We operate on 910 KHZ, non directional, with a daytime power of 5000 watts. WLAS is located in Onslow County, about 30 miles from the Atlantic Ocean, in the city of Jacksonville. Onslow County is the home of Camp Lejeune, USMC, the World's Largest Amphibious Station.
