WNEU

RADIO Wheeling, Inc.

March 10, 1971

The Solid Gold Sound

Mr. John N. Sampson
4148 Wycliff Drive
Winston-Salem, N.C. 27106

Dear Mr. Sampson:

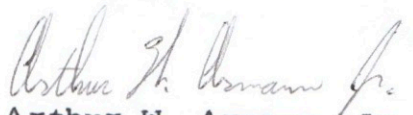

It is not too often that we receive a letter from the distance of Winston-Salem, N.C., however, from the information that you supplied us in your letter, you did receive our station and have our Sign-On and early Sunday morning programming correct.

Enclosed please find our coverage map. You will note our actual pattern is directional to the South of Wheeling and the contour measurements are underlined in black.

For your information we are a daytime AM directional 500 watt powered station with standard Sign-On of 6:00 AM. It is one in a million that you picked us up which proves "radio is a funny thing".

Thank you for writing us and we are glad to supply you with the above information.

Cordially yours,

Arthur W. Armann, Jr.
Chief Engineer

AWA, Jr./mkj
