28 March 1970

Mr. John Sampson
4148 Wycliff Drive
Winston-Salem, N. Carolina

Dear John,

This will verify your report of receiving the NRC DX Test on 15 March 1970.

We operate normally daytime only with 500 watts on 1540 kilohertz using a three-tower antenna system. There is very little signal in your direction.

Thank you for listening and reporting.

Sincerely,

John Ryan
