KC ON YOUR DIAL

Serving N. C. Outer Banks from Point Harbor To Cape Hatteras

September 2, 1970

John Sampson
4148 Wycliff Drive
Winston-Salem, North Carolina 27106

Dear Sir:

This is to verify your reception of WOBR,
1530 khz., Wanchese, North Carolina, on Sunday,
August 16, 1970 at 7:58½ P.M.

WOBR is a new station which began operation
on May 29 of this year. We have all new Collins
Radio equipment and have an output power of 250
watts, non-directional, daytime only.

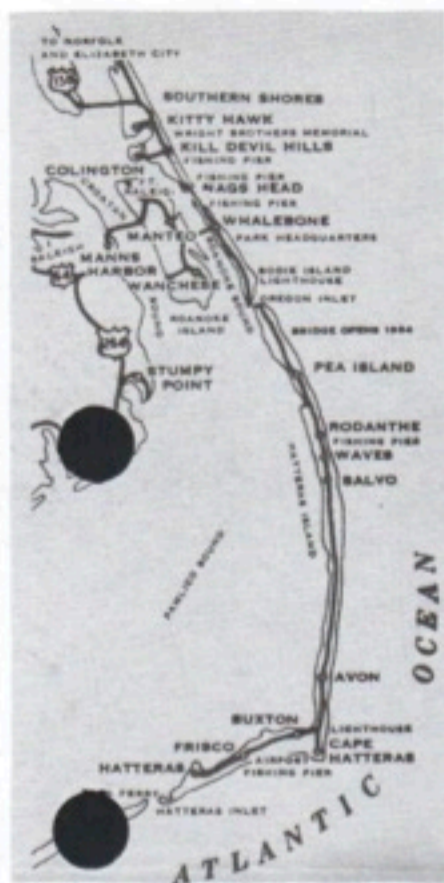

I might add that the owners of this station
are from near your area. One lives in Greensboro
and operates a theater supply firm and the other lives
in Eden and operates an AM-FM station there.

Yours truly,
OUTER BANKS RADIO CO.

Serving N. C. Outer Banks from Point Harbor To Cape Hatteras

To: MR. JOHN SAMPSON

This is to verify reception of WOBR Radio, Wanchese, North
Carolina on the following date and time:

Sunday, August 16, 1970 7:58½-8:00 P.M.

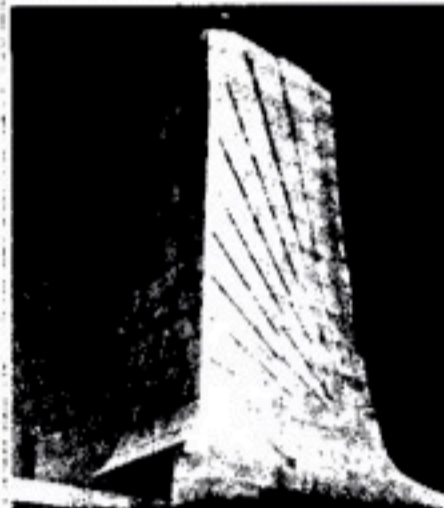

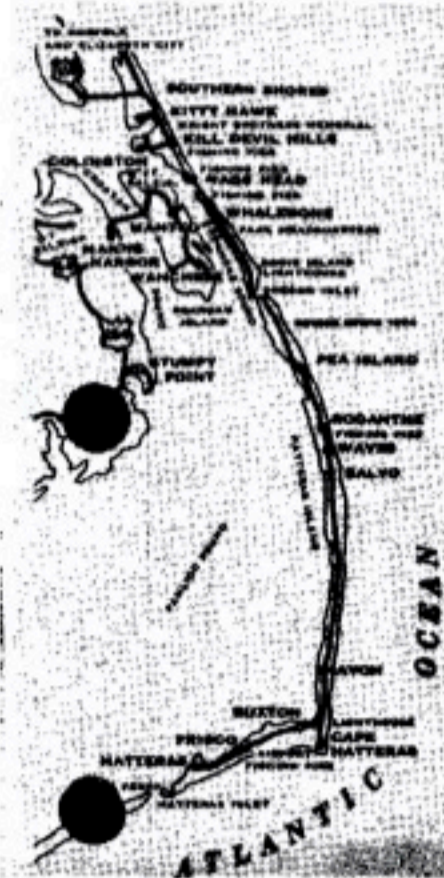

WOBR is a new station (May 29, 1970) operating on Clear Channel
1530, with 250 watts of power, daytime only, from studios
and transmitter one and one-half miles north of Wanchese, N. C.,
on Roanoke Island, between the Outer Banks and the mainland
of the state. We are about 90 miles south of Virginia Beach,
Va., and only three miles from the world famous Nags Head and
Hatteras Island resort area of the Atlantic Ocean.

We have received reports of clear DAYTIME reception all along
the coast from Quogue, Long Island, New York, to as far south
as Myrtle Beach, South Carolina. Ships at sea have reported
reception of a clear signal as far as 500 miles away. Because
of the position of our station on Roanoke Island, we cover a
radius of about 80 miles with a strong, clear signal.
We have all new Collins Radio equipment, including a Collins
820-D 1 AM Transmitter.

Thank you for your interest in WOBR, and feel free to stop by
the studios for the "grand tour" if you are ever in our area.

Yours truly,
OUTER BANKS RADIO COMPANY
