January 7, 1969

Mr. John Sampson
4148 Wycliff Dr.
Winston Salem, N. C. 27106

Dear Mr. Sampson:

Thank you for your report of reception of WQBA on the afternoon of January 1, 1969, which appears to be quite accurate.

As to the radiation pattern; it is very directional after sunset in order to protect WRVA among others, but the daytime pattern is designed to cover the Florida east coast, and of course your reception was on the relatively non-directional 10KW daytime signal.

Happy New Year.

Cordialmente,

WQBA-RADIO CONTINENTAL
A Susquehanna Station
