Mr. Sampson:

This will confirm your reception of WRAR on 7-11-72. I might add that, because of an application pending for 1000 Khz in Centreville, Va., we are operating with limiting resistors. Our T.P.O. is 500 watts, but our antenna input power is only 419 watts.

Good luck in your hobby- thanks for your interest!

John J. Heimerl
Program Director, WRAR/WRAR-FM
