WILLIS A. DEAL, General Manager

1000 Watts Non Directional

October 15, 1968

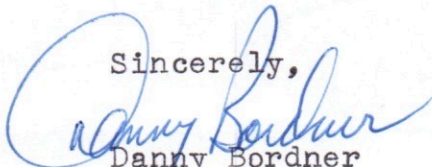

Mr. John Sampson  
4148 Wycliff Drive  
Winston-Salem, N.C.  
27106

Dear John:

First of all let me tell you a little about our operation here in Hickory. As you can see by the letterhead we are 1,000 watts on 1,000 kHz non-directional. I can varify that you did hear our station. It's nice to know that we carry that kind of signal into your area.

Enclosed is a couverage map of our courverage area and some other information you may find informative.

Thanks for the letter, it's nice to hear from you.

Sincerely,  
  
Danny Bordner  
Engineer
