1550 Kc. • 1000 Watts

November 26, 1968

Mr. John Sampson
4148 Wycliff Drive
Winston-Salem, N. C. 27106

Dear Mr. Sampson:

This is to affirm the fact that you have logged WTYN in it's broadcast at 5:27 EST on Nov. 20, 1968.

We are happy that you were able to pick us up from such a distance and now add your report to our ever-growing file of DXers.

WTYN is 1000 watts, uses an RCA BTA-IR xmtr, a 160' guyed non-directional antenna about 50 yards from the state line in the NE corner of Greenville county in South Carolina, so you can log us from either state since the transmitter is actually in S.C., but the license is for Tryon, N. C.

Best wishes on the continued success of your hobby, and if you are ever coming through Tryon, be sure to stop for a visit.

Sincerely,

Ace Rickenbacker

Program Manager

Ace Rickenbacker

Chief Engineer.
