Monitoring Report for Radio Station WWYO on 970 kHz.

Date Monday July 10, 1972 Monitoring period 6:00 AM to 6:08 PM Eastern Daylight Time

It was my pleasure to monitor transmissions from your station during the above period. As proof of reception I offer this log of items heard:

6:00 The National Anthem was broadcast, after which this sign on announcement was given - "Good Morning - This is radio station WWYO in Pineville, West Virginia, resuming broadcasting activities for today. WWYO is owned & operated by the Wyoming Broadcasting Company transmitting daily on an assigned frequency of 970 kilocycles, with a power of 1000 watts. We invite you to stay tuned throughout the day for a variety of entertainment. Then electronic type music was played, followed by an announcement - "The Sound of Today (more music) WWYO, Pineville."

6:01 Dateline news, with Randy Parks (I think) - first world & national news was given.

6:03 your signal faded (over)

On the basis of the above details, I wish to request a brief letter confirming the fact that I have received your station's signals. I collect these letters as a hobby and would be most pleased to add your confirmation to my collection. For your convenience in replying I have enclosed return postage. Thank you for your time and consideration. I hope this report has been of interest to you.

Many thanks!

Sincerely,

John Sampson
