Dear Mr. Schiller,

We received your reception report of 740 kHz - which is one of our two frequencies.

Radio Antilles broadcasts in English, Spanish and French with 200,000 Watts of power. On 740 kHz, we broadcast in French, and on 930 kHz, in English and Spanish.

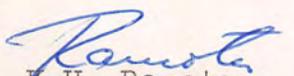

Our times of broadcast are:-

English	05:30	-	22:00	daily
French	05:30	-	21:15	"
Spanish	22:00	-	01:00	"

As you requested, Radio Antilles is heard as far north as the Virgin Islands (W.I.), and as far south as Venezuela in the south. We receive many letters, however, from many parts of the world, indicating that we are heard even further than our Montserrat meridian suggests.

We hope that you are satisfied with this verification, and that you would continue to listen to Radio Antilles, The Giant.

Yours very truly,
ANTILLES RADIO CORPORATION

Chief Engineer

Mr. Schiller :

Thanks a lot by **POST CARD**
your report. Our

listeners are in Venezuela, Colombia, Cuba, Dominican Republic, Porto Rico, but often we get letters from Europe and other countries of South America (Chile, Peru, etc.)
