Dear Mr. Sprague,

Thank you for your reception report. You included enough information to confirm that it was us you were indeed listening to. KSIB is a sunrise-sunset station and is currently on from about 7:15 till 5:15 during the month of January. We are rated to broadcast at 1000 watts at 1520 kHz.

Good luck and good hunting for your contest.

Dennis Poffenberger
Sincerely,

Dennis Poffenberger
