

WICHITA DIVISION

July 25, 1978

Steve Sprague
306 Poplar
Coffeyville, Kansas 67337

Dear Steve:

This letter is to confirm that you heard KBUL on 900 KHZ, from 6:48 to 7:07 pm, CDT on May 15, 1976.

I found your letter today as I was cleaning out a file drawer and have no record as to whether or not I answered it. If I already have, you may want to discard this letter and if not, I'm sorry this reply is so late.

About a year ago, KBUL moved to 1410 KHz and shortly thereafter became KEYN(AM), so KBUL is no longer in existence. Thank you for your signal report.

Sincerely,

Orin Friesen WAØKQW

Chief Engineer
