### WILLY WOOD

A rare breed of Woodpecker, WILLY WOOD makes his nest at WOOD RADIO 1300 and WOOD FM 105.7. An extremely social creature, Willy can be sighted frequently throughout the Grand Rapids area, taking a bird's-eye view of the Western Michigan scene.

Dear Mr. Sprague:

This will verify your reception of WOOD Radio, on December 10, 1980.

We appreciate your writing as it is always interesting to know how far our signal travels.
