Dear Steve:

Certainly, I am pleased to confirm your reception of KJLA Radio on February 4, 1985.

The description you gave of the programming format was quite adequate to assure that you were, in fact, listening to our station.

During the daytime hours, KJLA operates with 5000 watts of power and at night with 250 watts and a six tower directional antenna system. When we are on night power and patten we send a minimum amount of signal to the northeast and a maximum to the west.

Thank you for writing and good luck as you listen.

Sincerely,

OSBORN COMMUNICATIONS CORPORATION
