This reception report constitutes a request for a verification which our member needs in order to qualify for one or more certificates of achievement. If it is complete and accurate, we hope that you will be kind enough to comply. Should it be necessary to deny the request, please note reasons on the report and return to sender.

Verifications should show the station call, location, operating frequency, date and time of reception. The reporter's name should also be included, as should the name and position of the issuer.

We strongly urge that letters which "confirm receipt of your report" be discontinued. Actually valueless, these serve only to confuse the inexperienced listener.
