

Thank you for your reception report for
Nov. 25 1970. This is verification
of your letter that it was KAKC-AM you were re-
ceiving.

KAKC operates at 970 khz, 1000 watts day,
500 night with a two tower directional array.
The major lobes of the directional pattern runs
northeast, northwest and southeast.

Thanks again,

Randy
